

SAT. December 5, 2026

10:00 am-Noon

**ANNUAL COMMUNITY SHRED AND
E-WASTE DAY**

19828 Gleannbury Point

This Shred and E-Waste Day event is scheduled for the residents of the Gleannloch Farms community.

A shred truck will be available to receive up to 5 boxes per resident (18 inches by 12 inches) of paper goods. Shredding documents is an excellent way to get rid of important papers and protect your family from identity theft.

Electronic Recycling will provide a truck and the manpower to safely remove computer related electronics from your vehicle.

Please Note: the following items **will NOT be accepted:**

Batteries

Floor Copiers, Printers and Multipurpose

Florescent tubes

Hazardous waste

CRT Monitors

Items containing Freon

Kitchen and Bathroom appliances (including microwaves)

Light bulbs

Oils

Paints

Speakers

Televisions

Vacuum Cleaners

NO hazardous waste

SHREDDING TIPS:

Remove Metal Binders & Binder Clips before arriving (paper clips & staples are acceptable).

No Wet Paper!

No Hard Drives, CD's, Video Tapes or Film Reels!

Please do not bring your paper in a plastic bag. This slows the process down as the bag must be ripped open and inspected before disposing of the paper. Please bring it loose inside a box and the box will be returned to you.

There is no need to shred your papers before dropping it off.

Due to safety concerns, we are **unable** to allow residents to park & watch documents shredded.

We assure you all documents received between 10:00 to Noon will be shredded on site.
